Subject Index

Abscess
  Stereotactic drainage of brain abscesses. Letters, 154
Achondroplasia
  Foramen magnum decompression for homozygous achondroplasia. Letters, 300
  Hydrocephalus in achondroplasia: the possible role of intracranial venous hypertension, 42
Acoustic neurinoma
  Surgery for acoustic neurinoma. An analysis of 100 translabyrinthine operations, 799
  Surgical removal of giant acoustic neurinomas involving the skull base. Report of two cases, 611
Adenocarcinoma
  Pituitary gland metastasis from adenocarcinoma of the prostate. Case report, 138
Adenoma
  A combined orbitozygomatic infratemporal epidural and subdural approach for lesions involving the entire cavernous sinus, 699
  The effect of somatostatin analogue on chiasmal dysfunction from pituitary macroadenomas, 687
Adrenal medulla
  Preparation of adrenal medullary tissue for transplantation in Parkinson's disease: a new procedure. Technical note, 452
Alzheimer's disease
  Intracerebral drug delivery in rats with lesion-induced memory deficits, 105
  Intracerebroventricular bethanechol chloride infusion in Alzheimer's disease. Results of a collaborative double-blind study, 481
American Association of Neurological Surgeons
  AANS presidential address, 1989: Trends in neurosurgery, 471
  Cushing oration, 1989: Who manages the managers?, 311
Aminosteroid
  Effect of the 21-aminosteroid U-74006F on cerebral vasospasm following subarachnoid hemorrhage, 98
Anastomosis, vascular
  EC-IC bypass in hemodynamic cerebrovascular disease. Letters, 464
  Surgical alternatives in the treatment of cavernous sinus aneurysms, 846
Anatomical study
  Microsurgical anatomy of the tentorial sinuses, 923
Aneurysm
  Carotid cave aneurysms. Letters, 302
  CT infusion scanning for the detection of cerebral aneurysms, 175
  Detachable balloon embolization therapy of posterior circulation intracranial aneurysms, 512
  Hypothermia and circulatory arrest in aneurysm surgery. Letters, 793, 953
  Late paraophthalmic aneurysm rupture following endovascular treatment. Case report, 777
  Pneumatized anterior clinoid mimicking an aneurysm. Letter, 955
  A pneumatized anterior clinoid mimicking an aneurysm on MR imaging. Report of two cases, 128
  Surgical alternatives in the treatment of cavernous sinus aneurysms, 846
  A temporal approach to anterior communicating artery aneurysms. Technical note, 144
  Timing of surgery for ruptured aneurysms: statistical issues. Letters, 305
  Use of computerized electroencephalographic monitoring during aneurysm surgery, 24
Aneurysm clip, *see* Clip
Angioplasty
  Angioplasty for the treatment of symptomatic vasospasm following subarachnoid hemorrhage, 654
  Carotid angioplasty techniques. Letters, 301
  Transluminal angioplasty for treatment of intracranial arterial vasospasm, 648
Anterior communicating artery
  A temporal approach to anterior communicating artery aneurysms. Technical note, 144
Antigen
  Heterogeneity and modulation of tumor-associated antigens in human glioblastoma cell lines, 388
Apnea test
  The apnea test for the determination of brain death, 191
Arteriovenous fistula
  Complex dural arteriovenous fistulas. Results of combined endovascular and neurosurgical treatment in 16 patients, 352
  Sacral lipoma of the filum terminale with dural arteriovenous fistula. Case report, 768
Arteriovenous malformation
  Multiple dural arteriovenous malformations. Report of two cases, 932
  Natural course of unoperated intracranial arteriovenous malformations: study of 50 cases, 805
  Parapontine trigeminal cryptic angiomas presenting as trigeminal neuralgia, 368
Artery, *see* specific arteries
Astrocytoma
  Astrocytomas of the cerebellum in children, 661
Atlanto-occipital ligament
  Foramen magnum syndrome from pseudogout of the atlanto-occipital ligament. Case report, 141
Atrial natriuretic factor
  The effect of subarachnoid hemorrhage on blood and CSF atrial natriuretic factor, 32
Autoregulation
  Cerebral blood flow and metabolism in severely head-injured children. Part 2: Autoregulation, 72
Axis
  Acute axis fractures: a review of 229 cases, 642
Axonal injury
  Axonal injury in the optic nerve: a model simulating diffuse axonal injury in the brain, 244

Baclofen
Physostigmine in the treatment of intrathecal baclofen overdose. Report of three cases, 273
Balloon embolization
Detachable balloon embolization therapy of posterior circulation intracranial aneurysms, 512
Late paraophthalmic aneurysm rupture following endovascular treatment. Case report, 777
Basal ganglia
A hazard of craniotomy in the sitting position: the posterior compartment syndrome of the thigh. Case report, 618
Basilar artery
Alterations of mechanical properties in canine basilar arteries after subarachnoid hemorrhage, 430
BCNU
Randomized trial of three chemotherapy regimens and two radiotherapy regimens in postoperative treatment of malignant glioma. Brain Tumor Cooperative Group Trial 8001, 1
Benzodiazepine receptor
Imaging of brain tumors using peripheral benzodiazepine receptor ligands, 113
Bethanechol
Intracerebral drug delivery in rats with lesion-induced memory deficits, 105
Intracerebroventricular bethanechol chloride infusion in Alzheimer's disease. Results of a collaborative double-blind study, 481
Biopsy
Diagnostic yield in CT-guided stereotactic biopsy of gliomas, 494
Stereotactic suboccipital transcerebellar biopsy of pontine lesions. Letters, 466
Bone graft
Vascularized fibular graft to replace resected cervical vertebral bodies. Case report, 283

Brachytherapy
A controlled study of efficacy of interstitial or external irradiation in a virus-induced brain-tumor model in rats, 898
Radiation-induced intracranial malignant gliomas, 77
Brain death
The apnea test for the determination of brain death, 191
Lazarus sign and extensor posturing in a brain-dead patient. Case report, 449
Transcranial Doppler study of intracranial circulatory arrest, 195
Brain injury
Axonal injury in the optic nerve: a model simulating diffuse axonal injury in the brain, 244
Combined effect of respirator-induced ventilation and superoxide dismutase in experimental brain injury, 573
Effect of indomethacin pretreatment on acute mortality in experimental brain injury, 565
Experimental missile wound to the brain, 754
S-100 protein and neuron-specific enolase in CSF after experimental traumatic or focal ischemic brain damage, 727
Brain neoplasm
Analysis of mixed lymphocyte-tumor culture in patients with malignant brain tumor, 398
Astrocytomas of the cerebellum in children, 661
Characterization of insulin-like growth factor I and epidermal growth factor receptors in meningioma, 538
Characterization of lymphoid cells isolated from human gliomas, 528
Control of extraneural metastasis of a primary intracranial nongerminomatous germ-cell tumor. Case report, 601
A controlled study of efficacy of interstitial or external irradiation in a virus-induced brain-tumor model in rats, 898
Correlation of intraoperative ultrasound tumor volumes and margins with preoperative computerized tomography scans. An intraoperative method to enhance tumor resection, 691
Diagnostic yield in CT-guided stereotactic biopsy of gliomas, 494
The effect of intravenous interleukin-2 on brain water content, 169
Effect of nordihydroguaiaretic acid on cultured rat and human glioma cell proliferation, 551
Heterogeneity and modulation of tumor-associated antigens in human glioblastoma cell lines, 388
Imaging of brain tumors using peripheral benzodiazepine receptor ligands, 113
Immunomagnetic separation of infiltrating T lymphocytes from brain tumors, 218
Implantation of human meningiomas into the subrenal capsule of the nude mouse. A model for studies of tumor growth, 545
Incidence and clinicopathological features of meningioma, 665
Isolation and partial purification of growth factors with TGF-like activity from human malignant gliomas, 875
Liposomes coupled with monoclonal antibodies against glioma-associated antigen for targeting chemotherapy of glioma, 382
Monoclonal antibodies with cytotoxic reactivities against human gliomas, 892
Multifocal glioblastoma with liver metastases in the absence of surgery. Case report, 772
Murine intracerebral interleukin-2 injection: pathological and immunological effects, 732
National survey of patterns of care for brain-tumor patients, 826
Photoradiation therapy of tumors. Letters, 151
Postoperative imaging of pediatric brain tumors: erratum. Letter, 796
The prediction of recurrence in meningiomas. A flow cytometric study of paraffin-embedded archival material, 347
Pre-irradiation chemotherapy for infants and children with medulloblastoma: a preliminary report, 820
Primary intracranial leiomyosarcoma. Case report, 279
Prognostic implications of the bromodeoxyuridine labeling in-

dex of human gliomas, 335
Proto-oncogene abnormalities and their relationship to tumorigenicity in some human glioblastomas, 83
Quantification of the c-*myc* oncoprotein in human glioblastoma cells and tumor tissue, 224
Radiation-induced intracranial malignant gliomas, 77
Randomized trial of three chemotherapy regimens and two radiotherapy regimens in postoperative treatment of malignant glioma. Brain Tumor Cooperative Group Trial 8001, 1
Supratentorial anaplastic gliomas in adults. The prognostic importance of extent of resection and prior low-grade glioma, 487
Surgery for acoustic neurinoma. An analysis of 100 translabyrinthine operations, 799
Systemic beta-interferon therapy for recurrent gliomas: a brief report, 639
Trigeminal neurinomas: operative approach in eight cases, 506
Unenhanced and gadolinium-DTPA-enhanced MR imaging in postoperative evaluation in pediatric brain tumors, 49
Use of thallium-201 SPECT to quantitate malignancy grade of gliomas, 342
Brain shift
Brain shift, level of consciousness, and restoration of consciousness in patients with acute intracranial hematoma, 498
Bromodeoxyuridine
Prognostic implications of the bromodeoxyuridine labeling index of human gliomas, 335
Brown tumor
Paraplegia caused by brown tumor in primary hyperparathyroidism. Case report, 446
Burr hole
Cranial burr hole for revascularization in moyamoya disease, 180
Bypass procedure
EC-IC bypass in hemodynamic cerebrovascular disease. Letters, 464

Calcitonin gene-related peptide
Relaxant effect of calcitonin gene-related peptide on cerebral arterial spasm induced by experimental subarachnoid hemorrhage in dogs, 558
Carcinoma
The effect of intravenous interleukin-2 on brain water content, 169
Carotid artery
Carotid angioplasty techniques. Letters, 301
Traumatic carotid artery dissection: diagnosis and treatment, 854
Carotid cave
Carotid cave aneurysms. Letters, 302
Carotid-cavernous fistula
A combined orbitozygomatic infratemporal epidural and subdural approach for lesions involving the entire cavernous sinus, 699
Venous rupture during transvenous approach to a carotid-cavernous fistula. Case report, 133
Cavernous angioma
Cavernous angioma of the tentorium cerebelli. Case report, 935
Cavernous sinus
A combined orbitozygomatic infratemporal epidural and subdural approach for lesions involving the entire cavernous sinus, 699
Multiple dural arteriovenous malformations. Report of two cases, 932
Surgical alternatives in the treatment of cavernous sinus aneurysms, 846
CCNU
Irradiation and CCNU in glioma therapy. Letters, 791
Cerebral blood flow
Cerebral blood flow and glucose metabolism in experimental brain edema, 868
Cerebral blood flow and metabolism in severely head-injured children. Part 1: Relationship with GCS score, outcome, ICP, and PVI, 63
Cerebral blood flow and metabolism in severely head-injured children. Part 2: Autoregulation, 72
Estimation of CBF by cerebral venous oxygen difference. Letters, 790
Cerebral cortex
Cortical language localization in left, dominant hemisphere. An electrical stimulation mapping investigation in 117 patients, 316
Cerebral metabolism
Cerebral blood flow and metabolism in severely head-injured children. Part 1: Relationship with GCS score, outcome, ICP, and PVI, 63
Estimation of CBF by cerebral venous oxygen difference. Letters, 790
Cerebral myiasis
Intracerebral myiasis from *Hypoderma bovis* larva in a child. Case report, 929
Cerebral vasospasm
Effect of the 21-aminosteroid U-74006F on cerebral vasospasm following subarachnoid hemorrhage, 98
Cerebrospinal fluid outflow
Relationship between compliance and resistance to outflow of CSF in adult hydrocephalus, 59
Cerebrospinal fluid pressure
The effect of cerebrospinal fluid pressure on dural venous pressure in young rats, 119
Cerebrovascular disease
EC-IC bypass in hemodynamic cerebrovascular disease. Letters, 464
Cerebrovascular system
Spontaneous tone of cerebral parenchymal arterioles: a role in cerebral hyperemic phenomena, 711
Cervical spine
Acute axis fractures: a review of 229 cases, 642
The transoral approach to the superior cervical spine. A review of 53 cases of extradural cervicomedullary compression, 16
Cervicomedullary compression
The transoral approach to the superior cervical spine. A review of 53 cases of extradural cervicomedullary compression, 16
Chemotherapy
Liposomes coupled with monoclonal antibodies against glioma-associated antigen for targeting chemotherapy of glioma, 382
Pre-irradiation chemotherapy for infants and children with medulloblastoma: a preliminary report, 820
Randomized trial of three chemotherapy regimens and two radiotherapy regimens in postoperative treatment of malignant glioma. Brain Tumor Cooperative Group Trial 8001, 1
Chiari malformation
LP shunting in cases of Chiari malformation. Letters, 950
Subtorcular occipital encephaloceles. Anatomical considerations relevant to operative management, 375
Symptomatic Chiari malformations. An analysis of presentation, management, and long-term outcome, 159
Children
Astrocytomas of the cerebellum in children, 661
Cerebral blood flow and metabolism in severely head-injured children. Part 1: Relationship with GCS score, outcome, ICP, and PVI, 63
Cerebral blood flow and metabolism in severely head-injured children. Part 2: Autoregulation, 72
Intracerebral myiasis from *Hypoderma bovis* larva in a child. Case report, 929
Postoperative imaging of pediatric brain tumors: erratum. Letter, 796
Pre-irradiation chemotherapy for infants and children with medulloblastoma: a preliminary report, 820

Unenhanced and gadolinium-DTPA-enhanced MR imaging in postoperative evaluation in pediatric brain tumors, 49
Vacuum-stiffened beanbag for cranial remodeling procedures in modified prone position. Technical note, 623
Choroid plexus
An immunohistochemical study of neuroepithelial (colloid) cysts, 91
Circulatory arrest
Hypothermia and circulatory arrest in aneurysm surgery. Letters, 793, 953
Clinoid
Pneumatized anterior clinoid mimicking an aneurysm. Letter, 955
A pneumatized anterior clinoid mimicking an aneurysm on MR imaging. Report of two cases, 128
Clip
Evolution of the crossed-action intracranial aneurysm clip. Technical note, 293
Cold injury
Protective effect of the iron chelator deferoxamine on cold-induced brain edema, 233
Regeneration in the rat optic nerve after cold injury, 254
Colloid cyst
An immunohistochemical study of neuroepithelial (colloid) cysts, 91
Coma
Brain shift, level of consciousness, and restoration of consciousness in patients with acute intracranial hematoma, 498
Complement component
Activated complement components C3a and C4a in cerebrospinal fluid and plasma following subarachnoid hemorrhage, 741
Computerized tomography
Correlation of intraoperative ultrasound tumor volumes and margins with preoperative computerized tomography scans. An intraoperative method to enhance tumor resection, 691
CT infusion scanning for the detection of cerebral aneurysms, 175
Corpus callosum
Results of reoperation for failed epilepsy surgery, 815
Craniosynostosis
Vacuum-stiffened beanbag for cranial remodeling procedures in modified prone position. Technical note, 623
Craniotomy
Symptomatic hydrocephalus and reversible spinal cord compression in *Listeria monocytogenes* meningitis. Case report, 620
Creatine kinase
Improved outcome prediction based on CSF extrapolated creatine kinase BB isoenzyme activity and other risk factors in severe head injury, 54
Creutzfeldt-Jakob disease
Transmission of Creutzfeldt-Jakob disease by dural cadaveric graft. Letters, 954
Cushing, Harvey
A century of change in neurosurgery at Johns Hopkins: 1889–1989, 635
Cushing oration
Cushing oration, 1989: Who manages the managers?, 311
Cushing's disease
Repeat transsphenoidal surgery for Cushing's disease, 520
Cyst, *see also* Colloid cyst
Gas-containing cyst in the epidural space. Letters, 306
Mucinous cysts of the pituitary stalk. Report of two cases, 276

Dandy, Walter
A century of change in neurosurgery at Johns Hopkins: 1889–1989, 635
Deferoxamine
Protective effect of the iron chelator deferoxamine on cold-induced brain edema, 233
Dementia
Intracerebral drug delivery in rats with lesion-induced memory deficits, 105
Depressed skull fracture
Management of depressed skull fractures. Selective conservative management of nonmissile injuries, 186
Dextran
The effect of nimodipine and dextran on axonal function and blood flow following experimental spinal cord injury, 403
Drug delivery
Intracerebral drug delivery in rats with lesion-induced memory deficits, 105
Intracerebroventricular bethanechol chloride infusion in Alzheimer's disease. Results of a collaborative double-blind study, 481
Dural fistula
Sacral lipoma of the filum terminale with dural arteriovenous fistula. Case report, 768
Dural graft
Transmission of Creutzfeldt-Jakob disease by dural cadaveric graft. Letters, 954
Dural repair
Vicryl (polyglactin 910) mesh as a dural substitute in the presence of pia arachnoid injury, 124
Dural sinus
Microsurgical anatomy of the tentorial sinuses, 923
Dural substitute
Reactions to dural substitutes. Letter, 629
Vicryl (polyglactin 910) mesh as a dural substitute in the presence of pia arachnoid injury, 124
Dural venous pressure
The effect of cerebrospinal fluid pressure on dural venous pressure in young rats, 119

Edema
Attenuation of decompressive hypoperfusion and cerebral edema by superoxide dismutase, 578
Brain kininogen following experimental brain injury: evidence for a secondary event, 437
Cerebral blood flow and glucose metabolism in experimental brain edema, 868
Cytosolic calcium changes in endothelial cells induced by a protein product of human gliomas containing vascular permeability factor activity, 884
Protective effect of the iron chelator deferoxamine on cold-induced brain edema, 233
Eicosanoid
Effects of nicardipine on the *ex vivo* release of eicosanoids after experimental subarachnoid hemorrhage, 903
Electroencephalography
Use of computerized electroencephalographic monitoring during aneurysm surgery, 24
Embolization
Complex dural arteriovenous fistulas. Results of combined endovascular and neurosurgical treatment in 16 patients, 352
Intervertebral disc embolization resulting in spinal cord infarction. Case report, 938
Emergency care
Experimental missile wound to the brain, 754
Head injury mortality in two centers with different emergency medical services and intensive care, 202
Encephalocele
Subtorcular occipital encephaloceles. Anatomical considerations relevant to operative management, 375

Index

Encephalopathy
Delayed nonhemorrhagic encephalopathy following mild head trauma. Case report, 608
Endothelial cell
Cytosolic calcium changes in endothelial cells induced by a protein product of human gliomas containing vascular permeability factor activity, 884
Endothelium-derived relaxing factor
Pharmacological studies on relaxation of spastic primate cerebral arteries in subarachnoid hemorrhage, 909
Eosinophilic granuloma
Eosinophilic granuloma of the cervicothoracic junction. Case report, 942
Epidemiology
National survey of patterns of care for brain-tumor patients, 826
Primary intraspinal neoplasms in Norway, 1955 to 1986. A population-based survey of 467 patients, 842
Epidural lesion
Gas-containing cyst in the epidural space. Letters, 306
Epilepsy, *see* Seizure
Erythrocyte
Immunological reaction against the aging human subarachnoid erythrocyte. A model for the onset of cerebral vasospasm after subarachnoid hemorrhage, 718

Facial neoplasm
Transcranial resection of tumors of the paranasal sinuses and nasal cavity, 10
Fat
The influence of fat tissue on neuroma formation, 588
Filum terminale
Sacral lipoma of the filum terminale with dural arteriovenous fistula. Case report, 768
Foramen magnum
Foramen magnum decompression for homozygous achondroplasia. Letters, 300
Foramen magnum syndrome from pseudogout of the atlantooccipital ligament. Case report, 141
Free radical
Changes in xanthine oxidase in ischemic rat brain, 417

Gadolinium
Postoperative imaging of pediatric brain tumors: erratum. Letter, 796
Unenhanced and gadolinium-DTPA-enhanced MR imaging in postoperative evaluation in pediatric brain tumors, 49
Gasserian ganglion
Needle for use during percutaneous compression of gasserian ganglion for trigeminal neuralgia. Technical note, 455
Germ-cell tumor
Control of extraneural metastasis of a primary intracranial nongerminomatous germ-cell tumor. Case report, 601
Glioblastoma
Heterogeneity and modulation of tumor-associated antigens in human glioblastoma cell lines, 388
Multifocal glioblastoma with liver metastases in the absence of surgery. Case report, 772
Proto-oncogene abnormalities and their relationship to tumorigenicity in some human glioblastomas, 83
Quantification of the c-*myc* oncoprotein in human glioblastoma cells and tumor tissue, 224
Radiation-induced intracranial malignant gliomas, 77
Glioma
Characterization of lymphoid cells isolated from human gliomas, 528
Cystic glioma with positional oculogyric crises. Letters, 955
Cytosolic calcium changes in endothelial cells induced by a protein product of human gliomas containing vascular permeability factor activity, 884
Diagnostic yield in CT-guided stereotactic biopsy of gliomas, 494
Effect of nordihydroguaiaretic acid on cultured rat and human glioma cell proliferation, 551
Immunomagnetic separation of infiltrating T lymphocytes from brain tumors, 218
Inhibition of lymphocyte function by glioblastoma-derived transforming growth factor $\beta 2$, 211
Irradiation and CCNU in glioma therapy. Letters, 791
Isolation and partial purification of growth factors with TGF-like activity from human malignant gliomas, 875
Monoclonal antibodies with cytotoxic reactivities against human gliomas, 892
Prognostic implications of the bromodeoxyuridine labeling index of human gliomas, 335
Supratentorial anaplastic gliomas in adults. The prognostic importance of extent of resection and prior low-grade glioma, 487
Systemic beta-interferon therapy for recurrent gliomas: a brief report, 639
Use of thallium-201 SPECT to quantitate malignancy grade of gliomas, 342
Glucose metabolism
Cerebral blood flow and glucose metabolism in experimental brain edema, 868
Grading system
Uniform SAH grading. Letters, 303
Use of thallium-201 SPECT to quantitate malignancy grade of gliomas, 342
Graft
Preparation of adrenal medullary tissue for transplantation in Parkinson's disease: a new procedure. Technical note, 452
Vascularized fibular graft to replace resected cervical vertebral bodies. Case report, 283
Granuloma
Giant-cell granulomatous hypophysitis: a distinct clinicopathological entity, 681
Growth factor
Characterization of insulin-like growth factor I and epidermal growth factor receptors in meningioma, 538
Isolation and partial purification of growth factors with TGF-like activity from human malignant gliomas, 875

Headframe
The "thousand-hands Kannon" universal headframe. Technical note, 945
Head injury
Brain kininogen following experimental brain injury: evidence for a secondary event, 437
Brain shift, level of consciousness, and restoration of consciousness in patients with acute intracranial hematoma, 498
Cerebral blood flow and metabolism in severely head-injured children. Part 1: Relationship with GCS score, outcome, ICP, and PVI, 63
Cerebral blood flow and metabolism in severely head-injured children. Part 2: Autoregulation, 72

Clinical experience with a continuous monitor of intracranial compliance, 673
Delayed nonhemorrhagic encephalopathy following mild head trauma. Case report, 608
Experimental missile wound to the brain, 754
Head injury mortality in two centers with different emergency medical services and intensive care, 202
Improved outcome prediction based on CSF extrapolated creatine kinase BB isoenzyme activity and other risk factors in severe head injury, 54
Posttraumatic narcolepsy: the complete syndrome with tissue typing. Case report, 765
Synaptic reorganization within the human central nervous system following injury, 534
Hematoma, *see also* various types
Brain shift, level of consciousness, and restoration of consciousness in patients with acute intracranial hematoma, 498
Hemostasis
Preoperative scalp suturing for hemostasis. Letter, 307
Techniques to control bleeding from scalp incisions. Letters, 630
Hippocampus
Synaptic reorganization within the human central nervous system following injury, 534
Histiocytosis
Eosinophilic granuloma of the cervicothoracic junction. Case report, 942
Hydrocephalus
Hydrocephalus in achondroplasia: the possible role of intracranial venous hypertension, 42
Relationship between compliance and resistance to outflow of CSF in adult hydrocephalus, 59
Syringomyelia extending to the basal ganglia. Case report, 616
Hydrosyringomyelia
Symptomatic Chiari malformations. An analysis of presentation, management, and long-term outcome, 159
Hyperemia
Spontaneous tone of cerebral parenchymal arterioles: a role in cerebral hyperemic phenomena, 711
Hyperglycemia
The role of glucose uptake and metabolism in hyperglycemic exacerbation of neurological deficit in the paraplegic rat, 594
Hyperparathyroidism
Paraplegia caused by brown tumor in primary hyperparathyroidism. Case report, 446
Hypertension, *see also* Intracranial pressure
Hydrocephalus in achondroplasia: the possible role of intracranial venous hypertension, 42
Hyponatremia
The effect of subarachnoid hemorrhage on blood and CSF atrial natriuretic factor, 32
Hyponatremia treatment by urea and saline. Letters, 794
Intravenous urea and saline for hyponatremia. Letters, 304
Hypophysitis
Giant-cell granulomatous hypophysitis: a distinct clinicopathological entity, 681
Hypothermia
Hypothermia and circulatory arrest in aneurysm surgery. Letters, 793, 953
Hypoxia
Lidocaine in treatment of hypoxia. Letter, 153

Immunosuppression
Immunomagnetic separation of infiltrating T lymphocytes from brain tumors, 218
Inhibition of lymphocyte function by glioblastoma-derived transforming growth factor β2, 211
Immunotherapy
Analysis of mixed lymphocyte-tumor culture in patients with malignant brain tumor, 398
The effect of intravenous interleukin-2 on brain water content, 169
Monoclonal antibodies with cytotoxic reactivities against human gliomas, 892
Murine intracerebral interleukin-2 injection: pathological and immunological effects, 732
Indomethacin
Effect of indomethacin pretreatment on acute mortality in experimental brain injury, 565
Infarction
Intervertebral disc embolization resulting in spinal cord infarction. Case report, 938
Instrumentation
Needle for use during percutaneous compression of gasserian ganglion for trigeminal neuralgia. Technical note, 455
The "thousand-hands Kannon" universal headframe. Technical note, 945
Interferon
Analysis of mixed lymphocyte-tumor culture in patients with malignant brain tumor, 398
Systemic beta-interferon therapy for recurrent gliomas: a brief report, 639
Interleukin-2
The effect of intravenous interleukin-2 on brain water content, 169
Murine intracerebral interleukin-2 injection: pathological and immunological effects, 732
Interstitial irradiation
A controlled study of efficacy of interstitial or external irradiation in a virus-induced brain-tumor model in rats, 898
Interventional neuroradiology
Angioplasty for the treatment of symptomatic vasospasm following subarachnoid hemorrhage, 654
Complex dural arteriovenous fistulas. Results of combined endovascular and neurosurgical treatment in 16 patients, 352
Detachable balloon embolization therapy of posterior circulation intracranial aneurysms, 512
Transluminal angioplasty for treatment of intracranial arterial vasospasm, 648
Venous rupture during transvenous approach to a carotid-cavernous fistula. Case report, 133
Intracerebral hematoma
Intracerebral myiasis from *Hypoderma bovis* larva in a child. Case report, 929
Intracranial circulatory arrest
Transcranial Doppler study of intracranial circulatory arrest, 195
Intracranial compliance
Clinical experience with a continuous monitor of intracranial compliance, 673
Relationship between compliance and resistance to outflow of CSF in adult hydrocephalus, 59
Intracranial hematoma
The significance of thrombocytopenia in the development of postoperative intracranial hematoma, 38
Intracranial pressure
Clinical experience with a continuous monitor of intracranial compliance, 673
Intracranial pressure monitoring in the posterior fossa: a preliminary report, 503
Malignant pseudotumor cerebri. Report of two cases, 443
Intramedullary lesion
Subependymoma of the thoracolumbar cord. Case report, 781
Intraoperative monitoring
Correlation of intraoperative ultrasound tumor volumes and margins with preoperative computerized tomography scans. An intraoperative method to enhance tumor resection, 691
Use of computerized electroencephalographic monitoring during aneurysm surgery, 24

Index

Ischemia
Changes in xanthine oxidase in ischemic rat brain, 417
Lipid peroxidation in focal cerebral ischemia, 421
The role of glucose uptake and metabolism in hyperglycemic exacerbation of neurological deficit in the paraplegic rat, 594
S-100 protein and neuron-specific enolase in CSF after experimental traumatic or focal ischemic brain damage, 727
Spontaneous tone of cerebral parenchymal arterioles: a role in cerebral hyperemic phenomena, 711

Johns Hopkins centennial
A century of change in neurosurgery at Johns Hopkins: 1889–1989, 635
Juvenile pilocytic astrocytoma
Astrocytomas of the cerebellum in children, 661

Kallikrein-kinin system
Brain kininogen following experimental brain injury: evidence for a secondary event, 437

Labeling index
Prognostic implications of the bromodeoxyuridine labeling index of human gliomas, 335
Language localization
Cortical language localization in left, dominant hemisphere. An electrical stimulation mapping investigation in 117 patients, 316
Laser
Laser-assisted nerve repair in primates, 266
Lateral sinus
Multiple dural arteriovenous malformations. Report of two cases, 932
Leiomyosarcoma
Primary intracranial leiomyosarcoma. Case report, 279
Leukotriene
Effects of nicardipine on the *ex vivo* release of eicosanoids after experimental subarachnoid hemorrhage, 903
Lidocaine
Lidocaine in treatment of hypoxia. Letter, 153
Lipid peroxidation
Lipid peroxidation in focal cerebral ischemia, 421
Lipoma
Sacral lipoma of the filum terminale with dural arteriovenous fistula. Case report, 768
Liposome
Liposomes coupled with monoclonal antibodies against glioma-associated antigen for targeting chemotherapy of glioma, 382
Lumboperitoneal shunt
LP shunting in cases of Chiari malformation. Letters, 950

Magnetic resonance imaging
A pneumatized anterior clinoid mimicking an aneurysm on MR imaging. Report of two cases, 128
Unenhanced and gadolinium-DTPA-enhanced MR imaging in postoperative evaluation in pediatric brain tumors, 49
Malignancy grade
Use of thallium-201 SPECT to quantitate malignancy grade of gliomas, 342
Medical costs
Cushing oration, 1989: Who manages the managers?, 311
Medical practice
Cushing oration, 1989: Who manages the managers?, 311
Medulloblastoma
Pre-irradiation chemotherapy for infants and children with medulloblastoma: a preliminary report, 820
Meningioma
Characterization of insulin-like growth factor I and epidermal growth factor receptors in meningioma, 538
Implantation of human meningiomas into the subrenal capsule of the nude mouse. A model for studies of tumor growth, 545
Incidence and clinicopathological features of meningioma, 665
Optic nerve sheath meningioma. Letters, 151, 305
The prediction of recurrence in meningiomas. A flow cytometric study of paraffin-embedded archival material, 347
Primary intraspinal neoplasms in Norway, 1955 to 1986. A population-based survey of 467 patients, 842
Meningitis
Syringomyelia extending to the basal ganglia. Case report, 616
Metallurgical study
Evolution of the crossed-action intracranial aneurysm clip. Technical note, 293
Metastasis
Pituitary gland metastasis from adenocarcinoma of the prostate. Case report, 138
Microvascular decompression
Evaluation of microvascular decompression and partial sensory rhizotomy in 252 cases of trigeminal neuralgia, 359
Parapontine trigeminal cryptic angiomas presenting as trigeminal neuralgia, 368
Views on microvascular compression. Letters, 458
Missile wound
Experimental missile wound to the brain, 754
ML-9
Effects of ML-9 on experimental delayed cerebral vasospasm, 916
Monoclonal antibody
Liposomes coupled with monoclonal antibodies against glioma-associated antigen for targeting chemotherapy of glioma, 382
Monoclonal antibodies with cytotoxic reactivities against human gliomas, 892
Moyamoya disease
Cranial burr hole for revascularization in moyamoya disease, 180
Myelopathy
Paraplegia caused by brown tumor in primary hyperparathyroidism. Case report, 446

Narcolepsy
Posttraumatic narcolepsy: the complete syndrome with tissue typing. Case report, 765
Nelson's syndrome
Repeat transsphenoidal surgery for Cushing's disease, 520
Nerve regeneration
Regeneration in the rat optic nerve after cold injury, 254
Nerve repair
Laser-assisted nerve repair in primates, 266
Neurilemoma
Primary intraspinal neoplasms in Norway, 1955 to 1986. A population-based survey of 467 patients, 842

Neurinoma
The influence of fat tissue on neuroma formation, 588
Neuroectodermal tumor
Proto-oncogene abnormalities and their relationship to tumorigenicity in some human glioblastomas, 83
Neuron-specific enolase
S-100 protein and neuron-specific enolase in CSF after experimental traumatic or focal ischemic brain damage, 727
Neurosurgical history
AANS presidential address, 1989: Trends in neurosurgery, 471
Nicardipine
Effects of nicardipine on the *ex vivo* release of eicosanoids after experimental subarachnoid hemorrhage, 903
Nimodipine
The effect of nimodipine and dextran on axonal function and blood flow following experimental spinal cord injury, 403
Nitroprusside
Delayed postoperative neurological deterioration from prolonged sodium nitroprusside administration. Case report, 605
Nordihydroguaiaretic acid
Effect of nordihydroguaiaretic acid on cultured rat and human glioma cell proliferation, 551
Nucleus pulposus
Intervertebral disc embolization resulting in spinal cord infarction. Case report, 938

Oculogyric crisis
Cystic glioma with positional oculogyric crises. Letters, 955
Odontoid fracture
Acute axis fractures: a review of 229 cases, 642
Oncogene
Multifocal glioblastoma with liver metastases in the absence of surgery. Case report, 772
Proto-oncogene abnormalities and their relationship to tumorigenicity in some human glioblastomas, 83
Quantification of the c-*myc* oncoprotein in human glioblastoma cells and tumor tissue, 224
Operative technique, *see also* specific approaches
A combined orbitozygomatic infratemporal epidural and subdural approach for lesions involving the entire cavernous sinus, 699
Forced subarachnoid air in transsphenoidal excision of pituitary tumors (pumping technique), 864
The lateral extracavitary approach to the spine using the three-quarter prone position, 837
Multiple subpial transection in treatment of focal epilepsy. Letters, 629
Open and closed transcerebellar approaches to pontine lesions. Letters, 795
Subtorcular occipital encephaloceles. Anatomical considerations relevant to operative management, 375
Surgery for acoustic neurinoma. An analysis of 100 translabyrinthine operations, 799
Surgical management of midline skull-base tumors: a new approach, 705
Surgical removal of giant acoustic neurinomas involving the skull base. Report of two cases, 611
A temporal approach to anterior communicating artery aneurysms. Technical note, 144
Transcranial resection of tumors of the paranasal sinuses and nasal cavity, 10
The transoral approach to the superior cervical spine. A review of 53 cases of extradural cervicomedullary compression, 16
Vacuum-stiffened beanbag for cranial remodeling procedures in modified prone position. Technical note, 623

Ophthalmoplegia
Malignant pseudotumor cerebri. Report of two cases, 443
Optic chiasm
The effect of somatostatin analogue on chiasmal dysfunction from pituitary macroadenomas, 687
Optic nerve
Axonal injury in the optic nerve: a model simulating diffuse axonal injury in the brain, 244
Optic nerve sheath meningioma. Letters, 151, 305
Regeneration in the rat optic nerve after cold injury, 254
Outcome
Short-term psychological outcome of anterior temporal lobectomy, 327

Paraphysis
An immunohistochemical study of neuroepithelial (colloid) cysts, 91
Paraplegia
Intervertebral disc embolization resulting in spinal cord infarction. Case report, 938
Parkinson's disease
Preparation of adrenal medullary tissue for transplantation in Parkinson's disease: a new procedure. Technical note, 452
Peripheral nerve
Laser-assisted nerve repair in primates, 266
Photoradiation therapy
Photoradiation therapy of tumors. Letters, 151
Physostigmine
Physostigmine in the treatment of intrathecal baclofen overdose. Report of three cases, 273
Pineal tumor
Control of extraneural metastasis of a primary intracranial nongerminomatous germ-cell tumor. Case report, 601
Pituitary
Persistent trigeminal artery and pituitary adenoma. Letters, 301
Pituitary adenoma
Repeat transsphenoidal surgery for Cushing's disease, 520
Pituitary gland
Giant-cell granulomatous hypophysitis: a distinct clinicopathological entity, 681
Pituitary gland metastasis from adenocarcinoma of the prostate. Case report, 138
Pituitary stalk
Mucinous cysts of the pituitary stalk. Report of two cases, 276
Pituitary tumor
Forced subarachnoid air in transsphenoidal excision of pituitary tumors (pumping technique), 864
Pons
Open and closed transcerebellar approaches to pontine lesions. Letters, 795
Stereotactic suboccipital transcerebellar biopsy of pontine lesions. Letters, 466
Posterior fossa
Intracranial pressure monitoring in the posterior fossa: a preliminary report, 503
Presidential address
AANS presidential address, 1989: Trends in neurosurgery, 471
Pressure-volume index
Clinical experience with a continuous monitor of intracranial compliance, 673
Prognosis
Improved outcome prediction based on CSF extrapolated creatine kinase BB isoenzyme activity and other risk factors in severe head injury, 54
Supratentorial anaplastic gliomas in adults. The prognostic importance of extent of resection and prior low-grade glioma, 487

Index

Prostate
Pituitary gland metastasis from adenocarcinoma of the prostate. Case report, 138
Proto-oncogene
Proto-oncogene abnormalities and their relationship to tumorigenicity in some human glioblastomas, 83
Pseudogout
Foramen magnum syndrome from pseudogout of the atlantooccipital ligament. Case report, 141
Pseudotumor cerebri
Malignant pseudotumor cerebri. Report of two cases, 443

Radiation-induced neoplasm
Radiation-induced intracranial malignant gliomas, 77
Radiation therapy
A controlled study of efficacy of interstitial or external irradiation in a virus-induced brain-tumor model in rats, 898
Irradiation and CCNU in glioma therapy. Letters, 791
Randomized trial of three chemotherapy regimens and two radiotherapy regimens in postoperative treatment of malignant glioma. Brain Tumor Cooperative Group Trial 8001, 1
Rathke's cleft cyst
Mucinous cysts of the pituitary stalk. Report of two cases, 276
Revascularization
Cranial burr hole for revascularization in moyamoya disease, 180
Rhizotomy
Evaluation of microvascular decompression and partial sensory rhizotomy in 252 cases of trigeminal neuralgia, 359

S-100 protein
S-100 protein and neuron-specific enolase in CSF after experimental traumatic or focal ischemic brain damage, 727
Scalp
Techniques to control bleeding from scalp incisions. Letters, 630
Schwannoma
Surgery of spinal nerve schwannoma. Risk of neurological deficit after resection of involved root, 810
Sciatic nerve
The influence of fat tissue on neuroma formation, 588
Symptomatic hydrocephalus and reversible spinal cord compression in *Listeria monocytogenes* meningitis. Case report, 620
Seizure
Cortical language localization in left, dominant hemisphere. An electrical stimulation mapping investigation in 117 patients, 316
Multiple subpial transection in treatment of focal epilepsy. Letters, 629
Results of reoperation for failed epilepsy surgery, 815
Short-term psychological outcome of anterior temporal lobectomy, 327
Skull-base tumor
Surgical management of midline skull-base tumors: a new approach, 705
Surgical removal of giant acoustic neurinomas involving the skull base. Report of two cases, 611
Skull fracture
Management of depressed skull fractures. Selective conservative management of nonmissile injuries, 186

Somatostatin
The effect of somatostatin analogue on chiasmal dysfunction from pituitary macroadenomas, 687
Sparganosis
Sparganosis of the brain. Case report, 287
Sparganosis of the spinal cord. Case report, 290
Spinal cord
Sparganosis of the spinal cord, 290
Ultrastructure of the human posttraumatic syrinx, 239
Spinal cord blood flow
Effect of regional spinal cord blood flow and central control in recovery from spinal cord injury, 747
Spinal cord compression
Syringomyelia extending to the basal ganglia. Case report, 616
Spinal cord decompression
The lateral extracavitary approach to the spine using the three-quarter prone position, 837
Spinal cord injury
The effect of nimodipine and dextran on axonal function and blood flow following experimental spinal cord injury, 403
Effect of regional spinal cord blood flow and central control in recovery from spinal cord injury, 747
Spinal cord neoplasm
Primary intraspinal neoplasms in Norway, 1955 to 1986. A population-based survey of 467 patients, 842
Spinal cord tumor
Subependymoma of the thoracolumbar cord. Case report, 781
Spinal fracture
Acute axis fractures: a review of 229 cases, 642
Surgical management of spinal fractures. Letters, 955
Spinal infection
Nonoperative treatment of spinal epidural infections, 208
Spinal neoplasm
Sacral lipoma of the filum terminale with dural arteriovenous fistula. Case report, 768
Spinal nerve
Surgery of spinal nerve schwannoma. Risk of neurological deficit after resection of involved root, 810
Spinal reflex
Lazarus sign and extensor posturing in a brain-dead patient. Case report, 449
Spinal trauma
The lateral extracavitary approach to the spine using the three-quarter prone position, 837
Spirometra
Sparganosis of the brain. Case report, 287
Sparganosis of the spinal cord. Case report, 290
Staphylococcus aureus
Nonoperative treatment of spinal epidural infections, 208
Stereotaxis
Diagnostic yield in CT-guided stereotactic biopsy of gliomas, 494
Stereotactic drainage of brain abscesses. Letters, 154
Stereotactic suboccipital transcerebellar biopsy of pontine lesions. Letters, 466
Stimulation mapping
Cortical language localization in left, dominant hemisphere. An electrical stimulation mapping investigation in 117 patients, 316
Streptococcus viridans
Nonoperative treatment of spinal epidural infections, 208
Subarachnoid hemorrhage
Activated complement components C3a and C4a in cerebrospinal fluid and plasma following subarachnoid hemorrhage, 741
Alterations of mechanical properties in canine basilar arteries after subarachnoid hemorrhage, 430
Angioplasty for the treatment of symptomatic vasospasm following subarachnoid hemorrhage, 654
Delayed arterial narrowing following SAH. Letters, 152
The effect of subarachnoid hemorrhage on blood and CSF atrial natriuretic factor, 32

Effect of the 21-aminosteroid U-74006F on cerebral vasospasm following subarachnoid hemorrhage, 98
Effects of ML-9 on experimental delayed cerebral vasospasm, 916
Effects of nicardipine on the *ex vivo* release of eicosanoids after experimental subarachnoid hemorrhage, 903
Immunological reaction against the aging human subarachnoid erythrocyte. A model for the onset of cerebral vasospasm after subarachnoid hemorrhage, 718
Natural course of unoperated intracranial arteriovenous malformations: study of 50 cases, 805
Pharmacological studies on relaxation of spastic primate cerebral arteries in subarachnoid hemorrhage, 909
Relaxant effect of calcitonin gene-related peptide on cerebral arterial spasm induced by experimental subarachnoid hemorrhage in dogs, 558
Transluminal angioplasty for treatment of intracranial arterial vasospasm, 648
Uniform SAH grading. Letters, 303
Subdural hematoma
Acute subdural hematomas: an age-dependent clinical entity, 858
Subependymoma
Subependymoma of the thoracolumbar cord. Case report, 781
Suboccipital approach
Surgery for acoustic neurinoma. An analysis of 100 translabyrinthine operations, 799
Superoxide dismutase
Attenuation of decompressive hypoperfusion and cerebral edema by superoxide dismutase, 578
Combined effect of respirator-induced ventilation and superoxide dismutase in experimental brain injury, 573
Superoxide radical
Attenuation of decompressive hypoperfusion and cerebral edema by superoxide dismutase, 578
Effect of indomethacin pretreatment on acute mortality in experimental brain injury, 565
Surgical approach, *see* specific approaches
Suture
Preoperative scalp suturing for hemostasis. Letter, 307
Synaptic organization
Synaptic reorganization within the human central nervous system following injury, 534
Syringobulbia
A hazard of craniotomy in the sitting position: the posterior compartment syndrome of the thigh. Case report, 618
Syringomyelia
A hazard of craniotomy in the sitting position: the posterior compartment syndrome of the thigh. Case report, 618
Symptomatic Chiari malformations. An analysis of presentation, management, and long-term outcome, 159
Ultrastructure of the human posttraumatic syrinx, 239

Temporal approach
A temporal approach to anterior communicating artery aneurysms. Technical note, 144
Temporal lobectomy
Results of reoperation for failed epilepsy surgery, 815
Short-term psychological outcome of anterior temporal lobectomy, 327
Tentorium
Cavernous angioma of the tentorium cerebelli. Case report, 935
Microsurgical anatomy of the tentorial sinuses, 923
Thallium-201
Use of thallium-201 SPECT to quantitate malignancy grade of gliomas, 342
Thrombocytopenia
The significance of thrombocytopenia in the development of postoperative intracranial hematoma, 38
Timing of surgery
Timing of surgery for ruptured aneurysms: statistical issues. Letters, 305
Toxicity
Delayed postoperative neurological deterioration from prolonged sodium nitroprusside administration. Case report, 605
Systemic beta-interferon therapy for recurrent gliomas: a brief report, 639
Transclival approach
Surgical management of midline skull-base tumors: a new approach, 705
Transcranial approach
Transcranial resection of tumors of the paranasal sinuses and nasal cavity, 10
Transforming growth factor
Inhibition of lymphocyte function by glioblastoma-derived transforming growth factor β2, 211
Isolation and partial purification of growth factors with TGF-like activity from human malignant gliomas, 875
Translabyrinthine approach
Surgery for acoustic neurinoma. An analysis of 100 translabyrinthine operations, 799
Transoral approach
The transoral approach to the superior cervical spine. A review of 53 cases of extradural cervicomedullary compression, 16
Transsphenoidal surgery
Forced subarachnoid air in transsphenoidal excision of pituitary tumors (pumping technique), 864
Repeat transsphenoidal surgery for Cushing's disease, 520
Transvenous approach
Venous rupture during transvenous approach to a carotid-cavernous fistula. Case report, 133
Transverse sinus
Complex dural arteriovenous fistulas. Results of combined endovascular and neurosurgical treatment in 16 patients, 352
Traumatic arterial dissection
Traumatic carotid artery dissection: diagnosis and treatment, 854
Trigeminal artery
Persistent trigeminal artery and pituitary adenoma. Letters, 301
Trigeminal neuralgia
Evaluation of microvascular decompression and partial sensory rhizotomy in 252 cases of trigeminal neuralgia, 359
Needle for use during percutaneous compression of gasserian ganglion for trigeminal neuralgia. Technical note, 455
Parapontine trigeminal cryptic angiomas presenting as trigeminal neuralgia, 368
Trigeminal neurinoma
Trigeminal neurinomas: operative approach in eight cases, 506
Tumor-infiltrating lymphocyte
Analysis of mixed lymphocyte-tumor culture in patients with malignant brain tumor, 398
Characterization of lymphoid cells isolated from human gliomas, 528
Immunomagnetic separation of infiltrating T lymphocytes from brain tumors, 218
Inhibition of lymphocyte function by glioblastoma-derived transforming growth factor β2, 211
Tumor recurrence
The prediction of recurrence in meningiomas. A flow cytometric study of paraffin-embedded archival material, 347

Ultrasonography
Correlation of intraoperative ultrasound tumor volumes and margins with preoperative computerized tomography scans. An intraoperative method to enhance tumor resection, 691
Transcranial Doppler study of intracranial circulatory arrest, 195

Urea
Hyponatremia treatment by urea and saline. Letters, 794
Intravenous urea and saline for hyponatremia. Letters, 304

Vascular permeability factor
Cytosolic calcium changes in endothelial cells induced by a protein product of human gliomas containing vascular permeability factor activity, 884
Vasomotor tone
Spontaneous tone of cerebral parenchymal arterioles: a role in cerebral hyperemic phenomena, 711
Vasospasm
Activated complement components C3a and C4a in cerebrospinal fluid and plasma following subarachnoid hemorrhage, 741
Alterations of mechanical properties in canine basilar arteries after subarachnoid hemorrhage, 430
Angioplasty for the treatment of symptomatic vasospasm following subarachnoid hemorrhage, 654
Delayed arterial narrowing following SAH. Letters, 152
Effects of ML-9 on experimental delayed cerebral vasospasm, 916
Immunological reaction against the aging human subarachnoid erythrocyte. A model for the onset of cerebral vasospasm after subarachnoid hemorrhage, 718
Pharmacological studies on relaxation of spastic primate cerebral arteries in subarachnoid hemorrhage, 909
Relaxant effect of calcitonin gene-related peptide on cerebral arterial spasm induced by experimental subarachnoid hemorrhage in dogs, 558
Transluminal angioplasty for treatment of intracranial arterial vasospasm, 648
Vertebral body
Vascularized fibular graft to replace resected cervical vertebral bodies. Case report, 283
von Recklinghausen's disease
Trigeminal neurinomas: operative approach in eight cases, 506

Xanthine oxidase
Changes in xanthine oxidase in ischemic rat brain, 417
Xenograft
Implantation of human meningiomas into the subrenal capsule of the nude mouse. A model for studies of tumor growth, 545
